Welcome

It is the great pleasure of the Organizing Committee to welcome in Paris about 300 delegates representing 40 countries to the twelfth European Conference on X-Ray Spectrometry.

The scientific program consists of 12 invited lectures offered by distinguished scientists, 92 oral presentations (15 min) given by the participants, divided among 16 sessions.

More than 180 poster contributions have been received. The poster discussion is divided into three plenary sessions (Monday, Tuesday and Thursday afternoon) during which poster authors are requested to attend and discuss their exhibited work.

An exhibition of scientific instruments presented by more than 20 companies will take place during the first three days of the Conference.

Besides the intense academic program, the organizing committee has planned a varied social program for participants and accompanying persons.

Delegates are cordially invited to attend the Welcome reception (Sunday 18th), the cocktail hosted in the Hôtel de Lassay (Monday 19th), the guided tour to Versailles Castle (Wednesday 21st) and the Conference Dinner (Thursday 22nd). We also recommend enjoying the "Fete de la Musique" in the streets of Paris on the first day of summer (Wednesday 21st). Last, optional visits of SOLEIL Synchrotron and Louvre Museum Laboratory (C2RMF) are proposed on Friday 23rd.

The organizers acknowledge the support and assistance from all the sponsors, especially the Région Île-de-France, the Laboratoire National de Métrologie et d'Essais, the Soleil Synchrotron, the European Physical Society, the Centre National de la Recherche Scientifique-MIPPU and the International Atomic Energy Agency.

It is our sincere hope that each of you will benefit both scientifically and personally from your participation in EXRS 2006.

Proceedings

The conference proceedings will be published on a CD-ROM and sent to participants after the conference. Any manuscript transmitted to the Conference Secretariat before July 3, 2006 will be automatically included, without any reviewing procedure. Here, there are no specific instructions about size or shape: the manuscript will be included such as the authors will have prepared it, under their own responsibility.

Authors of accepted contributions are invited to submit a manuscript for publication in a special issue of X-Ray Spectrometry (Wiley Interscience). All submitted papers will be reviewed according to the normal review procedure of the journal. Manuscripts should be prepared under the strict format described in "Instructions to authors" (<http://www3.interscience.wiley.com/cgi-bin/jabout/1870/ForAuthors.html>). Manuscripts can be either submitted at the conference registration desk or sent electronically at the address: "exrs2006@cea.fr".

Deadline for the manuscripts submission is **July 3rd, 2006**.

Oral Presentations

The time attributed to each oral presentation is 15 minutes + 5 min for questions. All technical material will be presented with a digital projector and a PC running Microsoft Powerpoint. Please create your presentation using the most recent version of software available.

Speakers are kindly asked to load their file onto presentation machines at least one session prior to the one in which they will make the oral presentation.

Speakers should be present at least 15 minutes before the beginning of the Session in which they will give their presentation in order to introduce themselves to the Session Chair.

Posters

The size of the display area for a poster is 1.00 m in width and 2.00 m in height. Posters will be on display from Monday morning until the end of the conference. Authors will have the opportunity to discuss their posters during one of the three poster sessions.

The best poster award prizes at EXRS will be a selection of Wiley books up to the value of 300 euros and copies of the 'Handbook of Practical X-ray Fluorescence Analysis' recently published by Springer.

Conference Venue

The conference is held in Paris, in the "Cité Internationale Universitaire". It is located in the south side of Paris, in front of the "Cité Universitaire" RER station, well connected by public transportation to the heart of Paris and to the airports.

The Cité Internationale Universitaire

Facing the Parc Montsouris, the "Cité Internationale Universitaire de Paris" is a not well-known site, but is nonetheless one of a kind. It was built around 1920, in the peacetime context between World Wars I and II. In this utopian place without frontiers, students, teachers and researchers from all around the world can meet and share their differences. A living place based on cultural mixture, this "garden city" is located in a 35-hectares park and hosts 5 000 students and researchers from 126 nations. Residents live in 37 houses, with various styles, constituting an authentic museum of 20th-century architecture.

The Maison Internationale

The "Maison Internationale" is the heart of the Cité and its building is inspired by the Fontainebleau castle. It will host the Conference and includes a student restaurant, a restaurant, wireless Internet access, cash dispenser, etc.

Social Events

Welcome reception

A get-together reception will be held on Sunday June 18th, from 17:00 to 19:00 at the Conference site, at which time the registration formalities will be performed.

Cocktail

The reception will be hosted on Monday 19th in the private rooms of the Hotel de Lassay, under the sponsorship of Mr Jean-Louis Debré, president of the National Assembly. Smart casual dressing is required.

Excursion to Versailles castle

A trip to Versailles castle is scheduled on Wednesday June 21st. It includes a guided tour of the Palace and free time for a walk in the gardens. Buses will depart from the west side of the Cité Internationale at 13:15 (Avenue David Weill)

Music day (Fête de la Musique)

Since 1982, June 21st is the date of the "Fête de la Musique" (Music Festival) Amateur musicians as well as professionals of all ages, as solos or as a band, play everywhere in the streets. You may hear any kind of music from classical to jazz, blues, rock or techno. Music Festival is an absolutely wonderful day to experience!

Conference dinner

The conference dinner will be held on Thursday evening, in the restaurant "Le Duplex", close to the Arc de Triomphe, at the top of the Champs Élysées.
